

# JOSEPHINE KAISER

Josephine Kaiser's works are delicate silhouettes about the relationship between women and men. Kaiser shows a funny but very detailed view of these relationships and her work reflects the interplay between the two sexes in a humorous and unique way. In the cutout series "Women Need Adventure!" Kaiser shows all the more her unique view of everyday life from an artist's perspective.

Born in Berlin in 1974, Josephine Kaiser graduated from the Munich Design School in 1995 and has been working and living as an artist and freelance designer in Munich since 2000.

# ATM GALLERY BERLIN

ATM sees itself as a translator and mediator of art from public space and presents artists from the field of tension between contemporary photography, graphics, painting & installation and urban art.

Since 2007, ATM has been showing the most diverse positions and facets of the work of artists whose creative origins lie in the essence of our modern metropolises.

The aim is to make the energetic forms of expression of a globally active urban art scene more transparent for the public consciousness.
